

IMPACT BENEFITS FOR COMMUNITY BUILDERS

The size of the forest being built will determine the benefits available.

WITH OVER 40 BENEFITS, WE ARE PLEASED TO OFFER CUSTOMIZED PACKAGES TO ENGAGE INDIVIDUALS TO PARTICIPATE IN A NATIONAL CALL TO ACTION:

- Carbon offsets
- Proprietary Net Zero Calculator and Forestcaster™
- Access to a nation-wide connected community
- Recognized as an investor in a nature-based solution to climate change
- Promotion on social media
- Access to digital tools and resources

WHAT IS A FOREST TRUST UNIT (FTU)?

1 FTU

= 5 acres

= 5000+ seedlings

A FTU is a 5 acre Smart Forest that contains 5000+ planted seedlings. This is an ecologically biodiverse area that is under joint stewardship between CFT and the designated environmental steward.

Every FTU will undergo a 5-phase strategic action plan and be validated by modern science and Indigenous knowledge holders. Every FTU will also be protected from clear cutting under the CFT “Forever Forest” protection guarantee.
